Paralympic competition format

The Rio 2016 Paralympic Games football 5-a-side tournament is a men's event involving eight teams.

The competition starts with a group phase in which the eight teams will be divided into two groups of four. All teams will play each other in the group stage, with three points awarded for a win, one point for a draw and none for a loss.

The top two teams in each group qualify for the semifinals, with the bottom two teams playing classification matches to determine rankings from fifth to eighth. Winners of the semifinals will contest the gold medal match, while the losing semifinalists will play in the bronze medal match.

Final group phase rankings will be decided, in order, by the following tiebreaking criteria:

- a) Highest number of points won.
- b) Goal difference.
- c) Highest number of goals scored.
- d) Highest number of points obtained in the matches among the teams in question.
- e) Superior goal difference in the matches among the teams in question (if more than two teams finish equal on points).
- f) Penalties among the two teams in questions, or drawing of lots if both teams agree.
- g) Drawing of lots if there are more than two teams involved if tie remains unbroken.
